SERUM CATALOGUE

ACTIVE INGREDIENT CONCENTRATES

FOR TRULY VISIBLE RESULTS

Serums are the heart of skincare actives!

Their major advantage is that they contain valuable active ingredients in higher concentrations, making just a few drops enough for effective results

TARGETED SOLUTION

Designed to address specific skin concerns, these serums contain low molecular weight active ingredients that penetrate deeper beneath the skin's surface, delivering faster and more effective results.

SUITABLE FOR ALL AGES

Serums can be used at any age, as their formulation targets various skin concerns, including hydration, soothing, firming, wrinkle smoothing, correcting spots and uneven tone, energizing, strengthening the skin's immunity, and enhancing skin renewal processes.

PROVEN-EFFECT ACTIVE INGREDIENTS

Our formulas are enriched with natural active ingredients, scientifically proven to deliver visible results, such as AHAs (lactic acid and citric acid), aloe vera, argan oil, hyaluronic acid and peptides. Each of these ingredients offers unique benefits to meet various skin needs, from hydration and anti-aging effects to regeneration and nourishment.

INNOVATIVE FORMULAS

Our serums feature cutting-edge formulations enriched with plant-derived apple stem cells, Damask rose hydrolate, centella extract, and a variety of vitamins. Each formula is developed based on the latest skincare research to ensure maximum efficacy and safety.

USED INDIVIDUALLY OR IN COMBINATION

Depending on your skin type and goals, the serums can be used individually, combined with each other, or applied as an additional active ingredient under a facial cream or mask. They are suitable for both professional treatments and home skincare routines.

No.1

SO30511

MOISTURIZING SERUM

A hydrating serum rich in skin-identical water-binding ingredients, ideal for the complex and deep hydration of both the surface and deeper layers of the skin. With deep-hydrating effects, it enhances the skin's ability to retain moisture and strengthens the connective tissue. It balances the skin's natural pH and strengthens the epidermis. Thanks to its film-forming and moisture-retaining natural components, it delivers a silky, smooth finish, even on dry, irritated, or flaking skin.

- WATER- BINDING
- HYDRATING
- SKIN-SMOOTHING

Skin condition: epidermal and dermal dehydration, skin exposed to extreme weather conditions.

No.2

SO30512

REDNESS NEUTRALIZER SERUM

A herbal extract-rich, circulation-boosting serum that stimulates the formation of new cells, increases the skin's resistance, and reduces inflammatory processes. It helps to reduce the visibility of skin redness and capillary dilation while improving the elasticity of blood vessel walls. It is recommended for inflamed, sensitive, acne-prone skin, and can also be used in a treatment course for erythema (redness of the face).

- CIRCULATION-BOOSTING
- CELL FORMATION STIMULATING
- SOOTHING
- CONNECTIVE TISSUE STRENGTHENING
- TISSUE REGENERATING
- ANTI-INFLAMMATORY

Skin condition: inflamed, sensitive, and prone to capillary dilation.

No.3

SO30513

ELASTIN SERUM

Anti-aging serum with an immediate lifting effect. It hydrates and firms the skin. With its Preregen® antioxidant ingredient, it not only slows down the activity of the elastase enzyme, responsible for the breakdown of collagen fibers, but also protects the skin cells from oxidative damage. The combination of hydrolyzed elastin and moisturizing ingredients helps support the skin's natural regeneration processes, improving its texture and overall condition.

- IMMEDIATE LIFTING EFFECT
- FIRMING
- HYDRATING

Skin condition: mature, aging skin with loose connective tissue.

No.4

SO30514

Q 10 OIL SERUM

This oil-based serum energizes the skin, reduces the visibility of wrinkles, and, thanks to its antioxidant properties, helps diminish the signs of skin aging caused by environmental damage. Coenzyme Q10 plays a role in the cells' energy production processes, supporting more efficient regeneration and renewal of skin cells. At the cellular level, Q10 enhances the vitality of the face. Its high lipid content revitalizes mature, tired, and fat-deprived skin.

- REGENERATING
- CELL-ACTIVATING
- ANTIOXIDANT

Skin condition: mature, lipid-deficient, stress-exposed skin.

No.5
SO30515

VITAMIN C OIL SERUM

This Vitamin C oil serum, with its high concentration of active ingredients, is perfect for boosting skin immunity, stimulating collagen production for enhanced skin elasticity, and lightening pigmentation spots. Its rich formula makes it an ideal choice for dry and sensitive skin, as well as for repairing damaged skin barriers, especially in harsh, cold weather conditions.

- ANTI-AGING
- FIRMING
- SKIN-NOURISHING
- HYDRATING

Skin condition: dry, aging, combination, sun-damaged skin.

No.6
SO30516

CERAMIDE LIPOSOME EYE CARE SERUM

This deeply penetrating yet lightweight serum is specifically developed for the care of puffy, moisture and nutrient-deficient under-eye areas. Liposomal ceramide complex, hyaluronic acid, elastin, panthenol, and caviar extract work together to revitalize the sensitive under-eye area.

- VITALIZING
- CELL FUNCTION ACTIVATING
- HYDRATING
- FIRMING
- PUFFINESS REDUCING

Skin condition: suitable for all skin types, and for thinning, puffy under-eye area.

No.7
SO30517

HYALURONIC ACID SERUM

By replenishing the skin's lost moisture, it provides immediate and long-lasting hydration, strengthens the collagen network, and ensures the skin's elasticity and firmness. Due to its high water-binding and retention capacity, regular use significantly reduces the visible signs of aging and improves the skin's condition. Optimal hydration is the foundation of healthy skin function, making the No.7 Hyaluronic Acid Serum a perfect addition to any skincare routine.

- HYDRATING
- FIRMING
- ELASTICIZING

Skin condition: suitable for all skin types.

No.8
SO30518

HPR RETINOID OIL SERUM

A next-generation retinol-based anti-aging, firming, and cell-regenerating oil serum. Without irritation, it delays the signs of skin aging, provides support and volume to the tissues, and reduces pigmentation and acne. Results become visible after at least 6 weeks of consistent use.

- SKIN REJUVENATION
- SKIN TONE EVENING
- FIRMING
- MOISTURE RETENTION
- REDUCTION OF WRINKLE DEPTH
- SEBUM PRODUCTION REGULATION
- ANTI-INFLAMMATORY

Skin condition: aging, combination skin.

No.9
SO30519

NIACINAMIDE 10% + HYALURONIC ACID SERUM

A true „Jolly Joker“! This high-potency serum with 10% niacinamide and hyaluronic acid is designed to restore skin balance, address skin imperfections, and regulate sebum production. It helps combat acne, uneven skin tone, and clogged pores, reduces the greasy feeling of the skin, and normalizes pore size.

- REDUCING REDNESS
- HYDRATION AND MOISTURE RETENTION
- ANTI-AGING
- PIGMENTATION LIGHTENING
- PORE MINIMIZING
- REDUCING WRINKLE DEPTH
- SEBUM PRODUCTION REGULATION

Skin condition: oily/problematic, combination, aging skin.

No.10
SO31501

APPLE STEM CELLS FIRMING SERUM

This skin-renewing, hydrating, antioxidant, and wrinkle-smoothing serum nourishes the skin, enhancing the function of skin stem cells with its unique PhytoCellTech Malus Domestica extract. It delays aging, strengthens the epidermis thanks to its phospholipid and ceramide content, and provides a silky skin feel with its panthenol content. The apple stem cell extract promotes skin regeneration, making the skin fresher and more vibrant. Ideal for those over 30, as well as for mature, tired, or stress-exposed skin that requires extra nourishment and regeneration.

- ANTI-AGING
- CELL VITALITY BOOSTING
- HYDRATING

Skin condition: mature skin, damaged barrier, first wrinkles.

No.11

SO30520

BOTO-LIFT ARGIRELINE + MATRIXYL® 3000 SERUM

An intensive wrinkle-preventing and deep-hydrating serum with Argireline® and MATRIXYL® 3000 peptides, which help reduce the visibility of expression lines and give the facial contour a firmer appearance. The Argireline® peptides work by influencing mechanisms that regulate facial muscle contractions, supporting the prevention of wrinkle formation, while MATRIXYL® 3000 stimulates collagen production, enhancing skin elasticity and tone. An ideal choice even from the age of 25.

- SKIN REJUVENATION
- FIRMING
- HYDRATING

Skin condition: suitable for all skin types, for the treatment of expression lines and decreased firmness.

No.12

SO30528

PAD + PREBIOTIC SERUM

Potassium Azeloyl Diglycinate (PAD) is a water-soluble derivative of azelaic acid, known for its sebum-regulating properties, helping to reduce excessive oiliness and improve the appearance of acne-prone skin. It also has brightening effects as it inhibits melanin production, which may help fade dark spots and promote a more even skin tone. Prebiotics support the restoration and maintenance of the skin's healthy microbiome.

- STRENGTHENING THE SKIN'S NATURAL DEFENSES
- SEBUM PRODUCTION REGULATION
- PIGMENT LIGHTENING
- HYDRATION & CALMING

Skin condition: unclear origin inflammation, problematic, oily skin, rosacea, pigment spots.

Argán

SO31604

ARGAN STEM CELLS CONTOUR EYE CARE SERUM

It hydrates, firms, and keeps the delicate skin around the eyes youthful, while protecting and revitalizing the skin's own stem cells. Its fast-absorbing formula tightens and smoothes sagging skin.

- STRENGTHENING SKIN'S PROTECTIVE FUNCTIONS
- DEEP HYDRATION
- SKIN FIRMING
- ELASTICITY ENHANCEMENT

Skin condition: sensitive, water and oil-deficient under-eye area.

Argán

SO31605

ARGAN STEM CELLS RENEW SERUM

With its concentrated skin rejuvenating effect, it supports the skin, protects, and revitalizes the stem cells in the dermis and basal layer, thereby aiding skin renewal and tightening. The Argan PhytoCell Tech, a patented active ingredient complex, has been proven to penetrate all the way to the dermis layer, ensuring skin regeneration and restoring its firmness.

- STRENGTHENING SKIN PROTECTION FUNCTIONS
- ANTIOXIDANT
- HYDRATION
- FIRMING
- PROTECTION AGAINST SUN DAMAGE

Skin condition: thinned epidermis, loss of elasticity, premature aging due to sun damage.

Gold

SO30813

GOLD- HYALURON SERUM

By combining hyaluronic acid and 24-carat gold solution, this product maximizes the skin's hydration. Thanks to its ability to catalyze physiological processes, it is exceptionally effective in anti-aging skin-care.

- CATALYZING PHYSIOLOGICAL PROCESSES
- INTENSIVE HYDRATION
- SUPPORTING WATER RETENTION
- REDUCING THE DEPTH OF WRINKLES

Skin condition: surface and deep dehydration, tired, dull, „lackluster” skin.

Caviar

SO30601

CAVIAR EXCLUSIVE ANTI-WRINKLE SERUM

A true luxury for mature, nutrient-deficient yet dehydrated skin. Regenerating, anti-aging, with exceptional skin renewal effects and enhanced hydration, bringing the skin back to life.

- NOURISHING
- VITALIZING
- ENERGIZING
- FIRMING
- SKIN STRUCTURE STRENGTHENING
- METABOLISM BOOSTING

Skin condition: aging, dehydrated, and nutrient-deficient skin.

Grape

SO31700

GRAPE-HYALURON LINE FILLER SERUM

High in hyaluronic acid and rich in organic grape water and niacinamide, this serum harmonizes the skin's function, smooths wrinkles, and preserves skin elasticity. It protects the skin from the aging effects of oxidative stress.

- HYDRATION
- CELL RENEWAL ACTIVATION
- STRENGTHENING SKIN'S DEFENSE
FUNCTIONS

Skin condition: dehydrated, exposed to environmental damage, combination, sensitive.

Q10

SO30701

Q10 LIFTING SERUM

Energizing and firming serum that provides vitality and enhanced lifting effect. It is excellent for regenerating and energizing tired, loose, and sun-damaged skin. Enriched with Centella extract, Preregen® ingredient, Q10 coenzyme, caffeine, and macadamia and evening primrose oils.

- CELL ACTIVATION
- METABOLISM BOOST
- ENERGIZING
- FIRMING
- CIRCULATION ENHANCEMENT
- ANTI-AGING
- WRINKLE SMOOTHING
- NOURISHING

Skin condition: dry, aging, combination.

C-vitamin

SO31900

VITA WHITE VITAMIN-C SERUM

A special water-soluble C-vitamin skin-brightening serum. In addition to its excellent moisturizing effect, it optimizes the skin's melanin production and supports the formation of new collagen fibers, while the antioxidant properties of vitamin E provide strong protection against oxidative stress. With its niacinamide content, it enhances the synthesis of lipids and ceramides necessary for maintaining the structural and functional integrity of the skin barrier. Due to its skin-brightening and antibacterial properties, it can be an excellent complement to whitening treatments.

- ANTIOXIDANT
- STRENGTHENS SKIN PROTECTIVE FUNCTIONS
- FIRMING

Skin condition: suitable for all skin types, loss of tone, pigmentation spots.

AHA
SO21801

5% AHA PEEL SERUM

This serum with 5% alpha-hydroxy acid gently supports the skin's renewal process by removing dead skin cells. It hydrates and tones the skin. It is excellent for treating acne-prone skin. Thanks to its gentle formula, it does not cause stinging or discomfort, making it suitable for more sensitive skin types while minimizing the risks of peeling.

- EXFOLIATION
- INCREASED HYDRATION
- BRIGHTENING
- STRENGTHENING SKIN PROTECTION FUNCTIONS

Skin condition: tired, dull, sun-damaged, acne-prone, thickened epidermis, oily.

FOR PROFESSIONAL
USE ONLY!

AHA
SO21802

10% AHA PEEL SERUM

The 10% Alpha Hydroxy Acid Serum delivers a balanced exfoliation, making it the perfect choice for skin renewal, wrinkle smoothing, and pigmentation treatment. It also helps strengthen the skin's protective barrier while improving overall texture and tone.

- EXFOLIATION
- INCREASED HYDRATION
- BRIGHTENING
- STRENGTHENING SKIN'S PROTECTIVE FUNCTIONS

Skin condition: normal, oily/problematic, aging, combination, pigmented.

FOR PROFESSIONAL
USE ONLY!

AHA
SO21803

25% AHA PEEL SERUM

The 25% alpha-hydroxy acid serum delivers powerful exfoliating and skin-renewing effects while providing anti-inflammatory and antioxidant benefits. It effectively removes dead skin cells, brightens pigmentation spots, and visibly smooths and evens out the skin surface, all while strengthening the skin's natural defense mechanisms.

- EXFOLIATION
- INCREASED HYDRATION
- BRIGHTENING
- SKIN BARRIER SUPPORT

Skin condition: normal, oily/problematic, aging, combination, pigmented.

Mesopeptide

SO11224

HYALURON PEPTIDE SERUM COMPLEX

Internationally patented peptide complexes such as Neodermyl®, Rubixyl®, Leupheryl®, and two types of molecular-weight hyaluronic acid ensure the remarkable effectiveness of this deeply hydrating serum. It can also be used for electroporation-based active ingredient delivery.

- REVITALIZATION
- HYDRATION
- SKIN REJUVENATION
- WRINKLE REDUCTION

Skin condition: mature, wrinkled, dehydrated, sensitive.

Mesopeptide

SO11221

LIFTING PEPTIDE SERUM COMPLEX

A firming and lifting serum developed for the treatment of sagging, volume-loss-induced longitudinal wrinkles, enriched with Neodermyl® and Matrixyl3000® peptides and two types of hyaluronic acid with different molecular weights. It can also be used for electroporation-based ingredient delivery.

- SKIN DENSITY ENHANCEMENT
- LIFTING
- FIRMING
- WRINKLE REDUCTION

Skin condition: lack of firmness, wrinkled.

Mesopeptide

SO11225

BTX RELAX PEPTIDE SERUM COMPLEX

Triple action for the prevention and treatment of expression lines: Neodermyl®, Argireline®, Leupheryl®. Patented peptide complexes with a Botox-like effect. Suitable for electroporation-based ingredient delivery.

- WRINKLE REDUCTION
- HYDRATION
- SKIN REJUVENATION

Skin condition: expression lines appearing regardless of age.

Mesopeptide

SO11223

REDLESS PEPTIDE SERUM COMPLEX

An anti-inflammatory and anti-aging serum formulated with Neodermyl®, Rubixyl®, and Telangyn® peptides, along with two types of hyaluronic acid with different molecular weights. Suitable for electroporation-based ingredient delivery.

- SOOTHING
- DEEP HYDRATION
- REVITALIZATION
- ANTI-AGING

Skin condition: sensitive, inflamed, combination, aging.
